

Background

COVID-19 has dramatically shifted the delivery of health care for pregnant women. This project examines the effect of payer policy changes that

- *Manage risk for pregnant women*
- *Integrate social determinants of health*
- *Prevent growth of health disparities*
- *Mitigate provider financial distress*

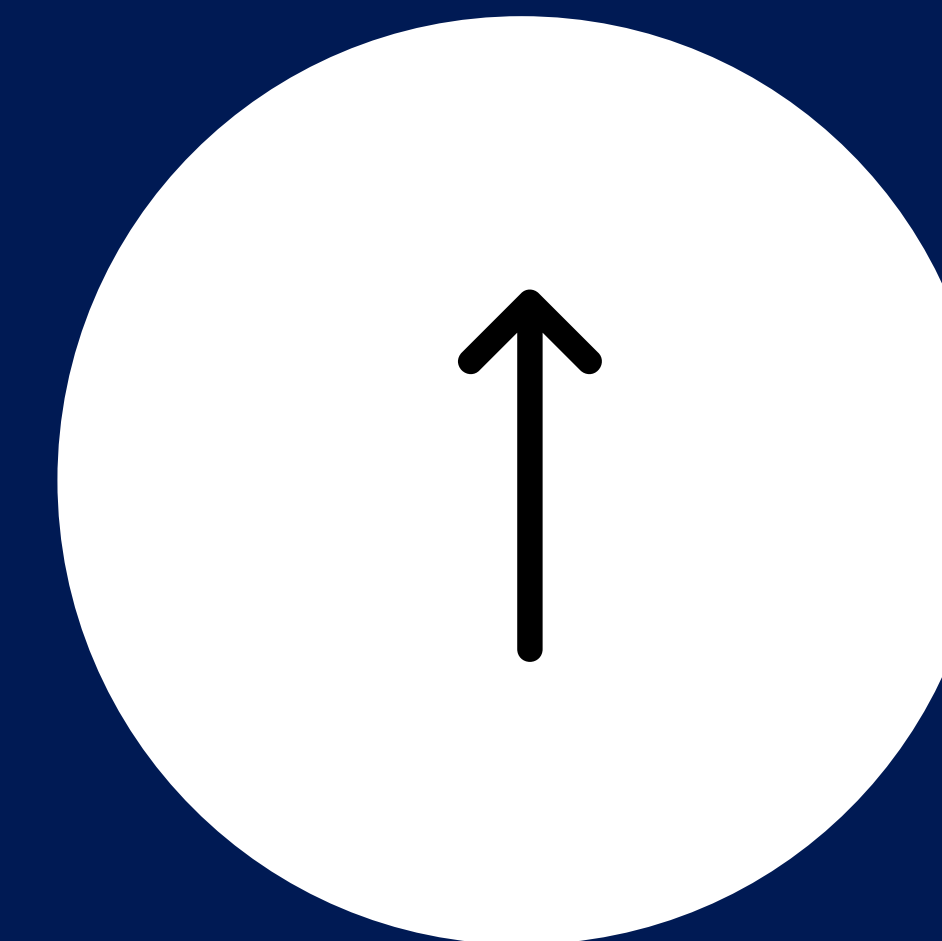

Process

- 1 ENVIRONMENTAL SCAN**
- 2 STAKEHOLDER INTERVIEWS**
- 3 ISSUE BRIEF DEVELOPMENT**

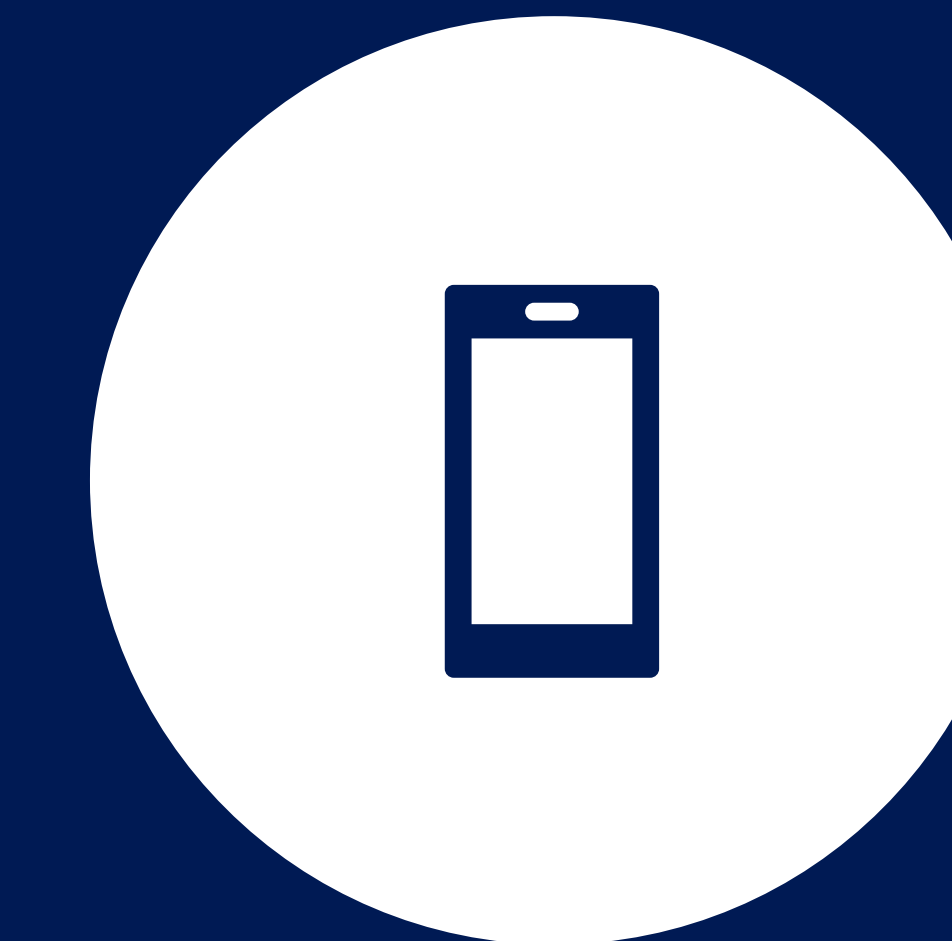

Preliminary Findings

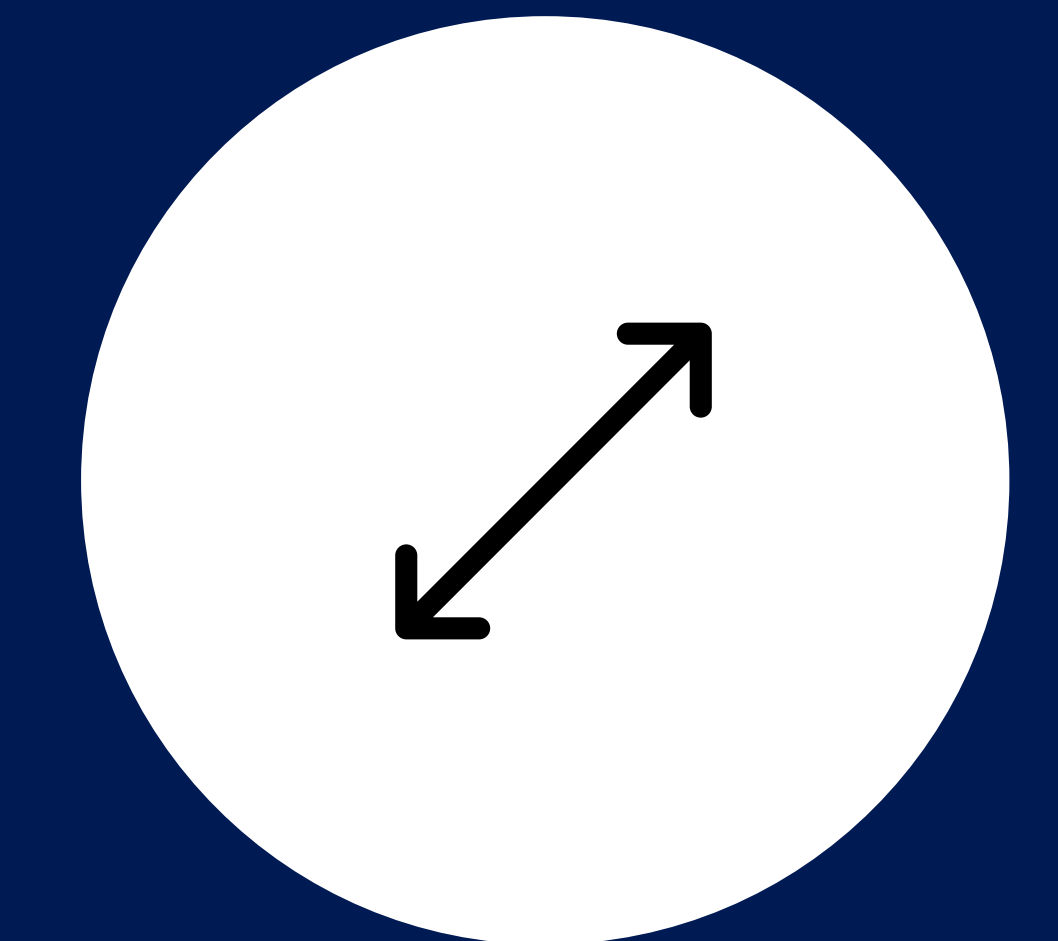

Greater Coverage

Telehealth Expansion

Flexibilities & Waivers

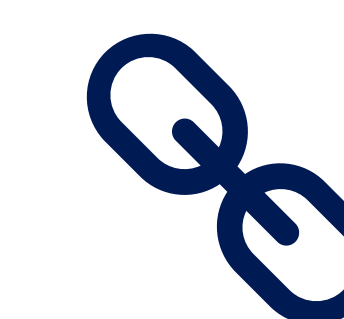

Next Steps

Finalize Interviews

10+ completed or scheduled interviews

Solidify Themes

Capture the overarching themes of telehealth and coverage expansion

Outline Issue Brief

Sketch out format and structure of the issue brief and work towards initial draft
