Margolis Internship Program Summer Research Symposium Program

August 3, 2020

Welcome to the 1st Annual Duke-Margolis Summer Research Symposium

The mission of Duke University's Robert J. Margolis, MD, Center for Health Policy is to improve health and the value of health care through practical, innovative, and evidence-based policy solutions. Duke-Margolis brings together capabilities that generate and analyze evidence across the spectrum of policy to practice, supporting the triple aim of health care – improving the experience of care, the health of populations and reducing the per capita cost. This requires broad multidisciplinary capabilities that few institutions can bring together, and is fueled by Duke University's entrepreneurial culture. The Center focuses on increasing opportunities to gain exposure to the field of health policy through collaborative curricular pathways and expanded mentored research opportunities for students interested in health policy.

The aim of the Summer Research Symposium is to provide an opportunity for students in the Internship Program to interact with leaders from academia, industry partners, various funding agencies, and publishers at a single venue. Summer Research Symposium attendees are a highly diverse group, and spend ample time thinking about how to reach people who are not specialists in your field. The Symposium also provides students with the opportunity to share their research with the broader Duke community to receive their support, feedback, and mentorship.

This year, the Symposium will take place on a virtual platform. You will have access to student poster and PowerPoint presentations, as well as reflections on participating in the Margolis Internship Program. Access the Summer Research Symposium by joining us on the [Duke-Margolis YouTube Channel](#). We are excited to have you join us.

August 3, 2020

Dear Margolis Research Interns, Mentors, Faculty, Staff and Guests:

On behalf of the entire Duke-Margolis community, we are delighted to welcome you to our inaugural virtual Summer Research Symposium. At Duke-Margolis, we encourage our undergraduate and graduate students to pursue meaningful research because we know that they can make an important contribution to the field of health policy and healthcare.

This symposium recognizes our intern's scholarship and celebrates the dedication of mentors from across Duke-Margolis' Core Faculty and staff, community partners, industry, and government. We are pleased to provide setting where diverse students can meet, engage with, and learn from each other. Our hope is that your example will help inspire the next generation of critical researchers and problem-solvers in health policy and health care transformation here in North Carolina and around the world.

We want to thank our dedicated mentors, scholars, faculty, and staff for supporting the hands-on experience that build life-long learners and engaged citizens. We welcome all of you to the Duke-Margolis community and hope you enjoy engaging with the Summer Research Symposium content.

Sincerely,

Mark McClellan, Gillian Sanders Schmidler, Sarah Dunn Phillips, Janet Prvu Bettger, and Corinna Sorenson

Mentor Acknowledgment

Mentors, thank you for taking the time this summer to support the 2020 Margolis Interns. With your support and mentorship, students have had the opportunity to gain foundational knowledge of the field of health policy, network with professionals and peers, gain hands-on research and presentation experience, and much more. Thank you for building positive relationships with our students, further strengthening the Margolis community.

Want More Program Information?

If you are looking for more information about the Margolis Internship Program, and/or want to learn about our Interns and their experiences, please visit the [Duke-Margolis Website](#). We look forward to connecting with you.
