

**CMMI and Value-Based Care After COVID-19:
Actions Needed to Achieve Care Transformation and Health Equity Goals**
Thursday, June 10th 12:00 – 2:00 pm ET

Objectives

- Discuss the Center for Medicare and Medicaid Innovation’s (CMMI’s) vision and strategy for enabling care transformation and promoting health equity through value-based payment (VBP).
- Identify specific actions CMMI can take to facilitate and sustain care transformation, particularly in the areas of primary care and population health, and address health disparities and achieve health equity goals.

12:00 pm Welcome & Overview

- Mark McClellan, Duke-Margolis Center for Health Policy

12:10 pm Fireside Chat

Session Objective: Discuss a vision and strategy for how CMMI can leverage VBP to support and sustain care transformation and promote health equity.

- Elizabeth Fowler, Center for Medicare and Medicaid Innovation
- Mark McClellan, Duke-Margolis Center for Health Policy

12:30 pm Facilitating and Sustaining Care Transformation through Value-Based Payment

Session Objective: Identify specific actions CMMI can take to support the transformation of care delivery, especially in the areas of primary care and population health.

- Don Crane, America’s Physician Groups
- Mara McDermott, McDermott+Consulting
- Don Berwick, Institute for Healthcare Improvement

1:15 pm Achieving Health Equity Goals through Value-Based Payment

Session Objective: Identify specific actions CMMI can take to incorporate health equity goals into the design, implementation, and evaluation of VBP models.

- Frederick Isasi, Families USA
- Mark Smith, University of California San Francisco
- Susan Birch, Washington State Health Care Authority

1:55 pm Closing Remarks

2:00 pm Adjournment

This webinar is part of a collaborative initiative on value-based payment reform supported by and in partnership with West Health.
