About the Margolis Scholars Program

The Margolis Scholars program is a prestigious program for Duke University students that demonstrate strong interest in and commitment to a career in health policy and management, as well as leadership potential to improve health policy. Named in honor of Robert Margolis, M.D., the founder of Duke-Margolis and a pioneer of innovative integrated care delivery models, the Margolis Scholars program provides promising students with the necessary knowledge, skills, and abilities to be the next generation of health care leaders.

Margolis Scholars is a competitive program open to students at all learner levels. Selected Scholars are engaged in the program for 1 to 2 years, depending on their program of study.

Program Components

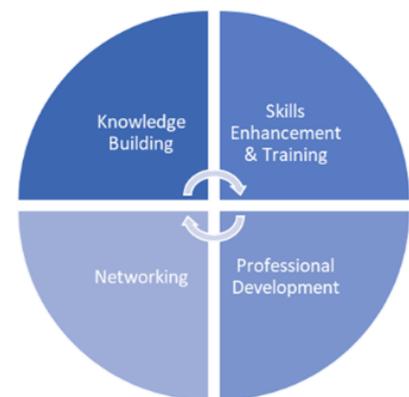

The Margolis Scholars program has four key components: *knowledge building, skills enhancement and training, professional development, and community building and networking*. Activities offered across the four components include, but are not limited to:

Knowledge Building: participate in health policy coursework, attend bi-weekly Margolis Seminars, and engage in a multi-day intensive health policy workshop

Skills Enhancement & Training: participate in research, simulation and skills labs, and teaching assistantships, as well as plan policy events and participate in peer mentorship programming

Professional Development: receive 1:1 academic and professional advising/mentorship, attend professional conferences, receive internship/fellowship guidance and placement, and plan community service projects

Community Building & Networking: receive monthly policy newsletters, plan annual events, attend Margolis Retreat and other social/alumni events, and participate in unique opportunities to meet experts in the field

The four key components of the Margolis Scholars program

Margolis Scholars Program
