

Emerging CMMI Models: Aligning to Reduce Burden & Achieve Person-Centered Care in 2024
Webinar Agenda

Wednesday, December 13, 2-3pm EST

- 2:00 PM **Welcome & Opening Remarks**
Robert Saunders, PhD – Senior Research Director, Duke-Margolis Center for Health Policy
- 2:05 PM **Fireside Chat with CMMI: Updates on Advancing CMS’s Accountable Care Vision**
- Objectives:** Discuss status updates on CMS’s 2030 accountable care goals. Provide updates on models updated or set to launch in 2024, discuss how they are promoting alignment, growth and equity through common design elements, and how CMS is putting people at the center of its models. CMMI will discuss how the directional alignment of these models can promote burden reduction and person-centered care.
- Participants**
- **Robert Saunders, PhD, Senior Research Director, Duke-Margolis Center for Health Policy**
 - **Kate Davidson, Director, Learning and Diffusion Group, Center for Medicare and Medicaid Innovation, Centers for Medicare & Medicaid Services**
- 2:25 PM **Moderated Discussion: Opportunities to Advance Person-centeredness and Reduce Burden in Emerging Models**
- Objectives:** Discuss how emerging CMMI models—redesigned ACO REACH, Making Care Primary, GUIDE, and the AHEAD model—can promote person-centered care and reduced burden for accountable providers through directionally aligned approaches and model elements. In particular, the panel will discuss what implementation of these models of care means for patients and the providers treating them, with a focus on equity and comprehensive, longitudinal care.
